

RadounPURE Wall – Mounting Fan

Our RamdounPURE wall-mounting fan is designed for heavy duty strength and durability. Use it to fulfill indoor ventilation needs in areas where powerful air circulation is required, such as a commercial gym, industrial factory, open area, warehouse, or on a construction site. It can even be utilized in a garage or shop to create a comfortable environment in residential spaces. This industrial fan features a unique polyethylene housing that will stand up to hard use without sustaining the dents and dings a steel housing may encounter and arrives fully assembled, saving you time and hassle when you need high velocity air movement fast.

APPLICATIONS

- Special manufactory for underground cable maintenance
- Blowing bad gas when welding shipbuilding, canning, bridge
- Exhaust for firefighting, piping construction and in other violent working situation
- Ventilation, Automotive, Commercial, Construction, Open, Close area, Home and Fitness, Industrial.

FEATURES

High velocity airflow up to 100CFM
with motor base and built in handles make your fan easily movable right/left with 180degree Easily accessible rocker switch on rear grille for high-off-low operation
Dent resistant, high density polyethylene housing
For in/out door use, Powder coated, rust resistant OSHA compliant grilles, convenient to move, Low noise and light, Saving energy, Strong wind power.
